# MIZORAM PUBLIC SERVICE COMMISSION

## TECHNICAL COMPETITIVE EXAMINATION FOR JUNIOR GRADE OF MIZORAM HEALTH SERVICES (COMBINED) (AYUSH SUB-CADRE) UNDER HEALTH & FAMILY WELFARE DEPARTMENT, GOVERNMENT OF MIZORAM. (SEPTEMBER-2025)

## TECHNICAL SUBJECT PAPER-II

## (ALLIED SUBJECT)

Time Allowed : 2 hours FM : 200

*All questions carry equal marks of 2 each.*
*Attempt all questions.*

**1.** Isolation not useful for all except:
(a) Mumps (b) Hepatitis B
(c) Hepatitis A (d) Pneumonic Plague

**2.** Which of the following viral infection is transmitted by tick?
(a) Japanese encephalitis (b) Dengue fever
(c) Kyasanur forest disease (KFD) (d) Yellow fever

**3.** Chronic carriers are found in all the following diseases except:
(a) Measles (b) Typhoid
(c) Hepatitis B (d) Gonorrhoea

**4.** In RNTCP which of the following drug was included in the year 2004 for treatment of Paediatric cases of TB even under 6 years of age after recommendation by Indian Academy of Paediatrics?
(a) Rifampicin (b) Isoniazid
(c) Ethambutol (d) Pyrazinamide

**5.** Case finding in RNTCP is based on:
(a) Sputum culture (b) Sputum microscopy
(c) X -ray chest (d) PCR antibody detection

**6.** Herd Immunity is NOT useful in:
(a) Diptheria (b) Polio
(c) Measles (d) Tetanus

**7.** Integrated counselling and testing centre (ICTC) is related to:
(a) National AIDS control program (b) RNTCP
(c) NVBDCP (d) NPCDC

**8.** '*Eye donation fortnight*' is observed on_____ .
(a) 25th July- 8th August (b) 25th August-8th September
(c) 25th September-8th October (d) 25th October- 8th November

**9.** In which of the following year India was declared Polio Free by WHO?
(a) 13th January, 2011 (b) 25th February, 2012
(c) 27th March, 2014 (d) 25th April, 2016

**10.** Acute Flaccid paralysis (AFP) surveillance is related to:
(a) Leprosy (b) Poliomyelitis
(c) Tuberculosis (d) Hepatitis B

**11.** What is the dose of Vit A above 1 year of age under Vit A prophylaxis programme in India?
(a) 100,000 IU (b) 150,000 IU
(c) 200,000 IU (d) 250,000 IU

**12.** Which of the following supplement is given in national Nutritional Anaemia prophylaxis programme in pregnant women?
(a) Iron (b) Folic acid
(c) Calcium (d) Iron and folic acid

**13.** Which of the following statements is incorrect regarding Vaccination and Immunisation?
(a) Immunisation is the phenomena of increasing specific antibody production
(b) Vaccination is the process of inoculation of harmless antigenic material into the healthy person
(c) A single vaccination gives adequate immunity and lasts lifelong
(d) Immunisation is carried out through vaccination and injection of antiserum

**14.** Integrated Child Development Services Scheme (ICDS) includes:
(a) Anganwadi Services Scheme (b) Pradhan Mantri Matru Vandana Yojana
(c) Scheme for Adolescent Girls (d) All the above

**15.** When was the national vector borne disease control programme launched?
(a) 1953-1954 (b) 1978
(c) 2003-2004 (d) 2014

**16.** Healthcare Professionals Registry (HPR) is related to:
(a) Ayushman Bharat Digital Mission (b) National Health Mission
(c) National Ayush Mission (d) Swaccha Bharat Abhiyan

**17.** An infectious disease which occurs only infrequently, haphazardly, irregularly or occasionally is called as:
(a) Epizootics (b) Zoonosis
(c) Sporadic (d) Pandemic

**18.** As per National Health Policy-2017, Mother Mortality rate should be less than:
(a) 2 per 1000 (b) 1 per 1000
(c) 30 per 1000 (d) 60 per 1000

**19.** The vision of Ayush Oushadhi Gunvattaevam Uttpadan Samvardhan Yojana (AOGUSY) is/are:
(a) To inculcate culture of quality production of Ayush products assured with safety and efficacy
(b) To enable Ayush drug industry in complying with national and global regulatory requirements and standards
(c) To build up visibility and demand- driven market presence of Ayush products
(d) All of the above

**20.** Given below are two statements :
Statement 1 : Antidote of Dhatura is Picrotoxine
Statement 2 : Antidote of Barbiturates is Pilocarpine
(a) Statement 1 & Statement 2 both are correct
(b) Statement 1 & Statement 2 both are incorrect
(c) Statement 1 is correct but Statement 2 is incorrect
(d) Statement 1 is incorrect but Statement 2 is correct

**21.** Leprosy is caused by:
(a) Clostridium perfringens
(b) Mycobacterium tuberculosis
(c) Pseudomonas aeruginosa
(d) Mycobacterium leprae

**22.** What is the primary objective of the National AYUSH Mission?
(a) To promote integrative medicine
(b) To promote AYUSH systems through cost-effective services
(c) To promote traditional medicine
(d) To focus on research in AYUSH

**23.** What is the "gold standard" for diagnosing leprosy?
(a) Blood test
(b) Skin biopsy and microscopic examination
(c) X-ray of the affected area
(d) MRI scan

**24.** Which of the following is a vector for Kala-azar?
(a) Anopheles culifacies
(b) Sandfly
(c) Aedes aegypti
(d) Culex pipiens

**25.** What is the primary method of preventing malaria transmission?
(a) Vaccination
(b) Antibiotics
(c) Vector control measures
(d) Antiviral drugs

**26.** Where are sporozoites of the malarial parasite found?
(a) Saliva of freshly moulted female Anopheles mosquito
(b) Saliva of infected female Anopheles mosquito
(c) RBCs of infected human
(d) Spleen of infected human

**27.** What is the role of the National Vector Borne Disease Control Programme (NVBDCP) in India?
(a) Eradicate malaria completely
(b) Control and prevent vector-borne diseases
(c) Develop new vaccines for malaria
(d) Promote the use of insecticides

**28.** The rabies virus primarily affects:
(a) The digestive system
(b) The respiratory system
(c) The central nervous system
(d) The circulatory system

**29.** Which of the following is NOT a key component of the NACP?
(a) Prevention of new infections
(b) Providing care, support, and treatment for those living with HIV
(c) Raising awareness about HIV/AIDS
(d) Providing cash benefits to all people affected by HIV

**30.** What does NACO stand for?
(a) National AIDS Control Organisation
(b) National Awareness and Control Organisation
(c) National AIDS Counselling Organisation
(d) None of the above

**31.** What is the main objective of Project Sunrise, launched in the North-Eastern states of India?
(a) To provide free treatment for all infectious diseases
(b) To combat the increasing HIV/AIDS prevalence in the North-East region
(c) To promote tourism in the North-Eastern state
(d) To focus on economic development in the North-Eastern states

**32.** What is the target year for ending the HIV/AIDS epidemic as a public health threat according to the Sustainable Development Goals?
(a) 2025 (b) 2030
(c) 2035 (d) 2040

**33.** Which organization played a key role in the global polio eradication initiative, which influenced the launch of the Pulse Polio Programme in India?
(a) UNICEF (b) WHO
(c) UNDP (d) World Bank

**34.** Which of the following is NOT a component of the RMNCH+A program under NHM?
(a) Reproductive Health (b) Maternal Health
(c) Adolescent Health (d) Disease Control

**35.** Which of the following is a key focus area of NHM?
(a) Free medical education for all
(b) Providing affordable healthcare services to rural and urban populations
(c) Privatizing all healthcare services
(d) Limiting access to healthcare in urban areas

**36.** The PM-JAY schemes provide how much health coverage per family per year?
(a) 50000 (b) 1 lakh
(c) 2 lakhs (d) 5 lakhs

**37.** Which ministry oversee the Ayushman Bharat Programme?
(a) Ministry of Health and family welfare (b) Ministry of Ayush
(c) Ministry of women and child development (d) Ministry of Finance

**38.** Ayushman Bharat encourages use of which type of technology for effective healthcare delivery?
(a) Blockchain (b) Artificial Intelligence
(c) Telemedicine (d) Virtual reality

**39.** A 4-year-old child presents with high fever, cough, coryza, and conjunctivitis. Two days later, a maculopapular rash appears, starting at the hairline and spreading downward. What is the most likely diagnosis?
(a) Rubella (b) Scarlet fever
(c) Roseola (d) Measles

**40.** Which of the following is a pathognomonic sign of Measles?
(a) Koplik spot (b) Strawberry tongue
(c) Slapped cheek appearance (d) Forchheimer spots

**41.** In males, mumps can lead to inflammation of which of the following organ?
(a) Lungs (b) Liver
(c) Testicles (d) Kidney

**42.** What kind of diarrheal virus is most common in children?
(a) Rota virus (b) Noro virus
(c) Varicella (d) Hand foot and mouth

**43.** Which bacterial agent of diarrhoea is a gram-negative motile bacillus belonging to the Enterobacteriaceae family?
(a) Escherichia coli (b) Campylobacter
(c) Shigella (d) Yersinia

**44.** In which environment do Clostridium tetani bacteria thrive?
(a) High oxygen levels (b) Anaerobic environments
(c) High temperatures (d) Salty water

**45.** Which of the following is NOT a symptom of tetanus?
(a) Elevated blood pressure (b) Muscle spasms
(c) Difficulty swallowing (d) Skin rash

**46.** Which type of cancers form in bone and soft tissues, including muscle, fat, blood vessels, lymph vessels, and fibrous tissue (such as tendons and ligaments)?
(a) Leukaemia (b) Sarcoma
(c) Lymphoma (d) Carcinoma

**47.** Which cancer treatment uses cell killing (cytotoxic) drugs?
(a) Biological therapy (b) Chemotherapy
(c) Radiotherapy (d) Total body irradiation

**48.** Which test is/are used to diagnose and determine the best treatment to relieve symptoms in people with suspected CHD?
(a) Exercise tolerance test (b) Electrocardiogram
(c) Coronary angiogram (d) All of these

**49.** HIV is a retrovirus that infects and colonizes cells in the _____.
(a) Immune system
(b) Immune system and the central nervous system
(c) Endocrine system
(d) Immune system and endocrine system

**50.** One in ten people _____ believe, HIV infection can be transmitted through routes such as _____ .
(a) Incorrectly; kissing and spitting (b) Correctly; kissing and spitting
(c) Incorrectly; needle sharing (d) None of these

**51.** Fruit odour in breath is seen in_____ poisoning.
(a) Nux vomica (b) Iso-propyl alcohol
(c) Hydrogen sulphide (d) Opium

**52.** The highest judicial tribunal in India is:
(a) President's court (b) Rajya sabha
(c) Lok Sabha (d) Supreme court

**53.** Section 197 of IPC deals with:
(a) Injury (b) Causing death by negligence
(c) Culpable homicide (d) Issuing false certificate

**54.** The last deciduous tooth to erupt is:
(a) Canine
(b) Lateral incisor
(c) First molar
(d) Second molar

**55.** The pugilistic attitude is primarily caused due to:
(a) Coagulation of protein
(b) Rigor mortis
(c) Coagulation of fats
(d) Cadaveric spasm

**56.** In female, the last organ to putrefy is:
(a) Uterus
(b) Ovary
(c) Heart
(d) Spleen

**57.** Sodomy is:
(a) Natural sexual offence
(b) Unnatural sexual offense
(c) Abnormal perversion
(d) Sexual desire

**58.** Oleander is a _____ poison.
(a) Cerebral
(b) Spinal
(c) Cardiac
(d) Narcotic

**59.** British Anti-Lewisite (BAL) is contraindicated in:
(a) Gastritis
(b) Dehydration
(c) Liver damage
(d) Kidney damage

**60.** Hatter's shake is seen in the poisoning of:
(a) Arsenic
(b) Mercury
(c) Lead
(d) Copper

**61.** Algor mortis is the other name for:
(a) Rigor mortis
(b) Cold stiffening
(c) Heat stiffening
(d) Post mortem cooling

**62.** Hairs and nails are preserved for chemical analysis in suspected case of poisoning due to:
(a) Arsenic
(b) Cyanide
(c) Barbiturate
(d) Strychnine

**63.** Chadwick's sign is:
(a) Bluish discoloration of the vaginal and cervical tissues
(b) Softening of cervix
(c) Increased vaginal mucous secretion
(d) Both (a) and (b)

**64.** Which one of the following is true about dying declaration?
(a) It is recorded in question answer form
(b) Oath is administered to patient
(c) No witness is required
(d) Any person may be present during recording

**65.** Rigor mortis, the stiffening of muscles after death, is typically fully established:
(a) 2-3 hours after death
(b) 12 hours after death
(c) 24 hours after death
(d) 48 hours after death

**66.** In which poisoning Mees lines appear on finger nails?
(a) Copper
(b) Mercury
(c) Arsenic
(d) Iron

**67.** Which of the following is NOT a common type of snake venom?
(a) Hemotoxic (b) Neurotoxic
(c) Cytotoxic (d) Acidotoxic

**68.** The commonly used cattle poison is:
(a) Abrus precatorius (b) Croton tinglium
(c) Calotropis gigantea (d) Ergot

**69.** Banana is an example of _____ antidote.
(a) Mechanical (b) Chemical
(c) Physiological (d) Universal

**70.** Nuxvomica seeds contain 2 alkaloids, strychnine and _____ .
(a) Hyoscine (b) Hyosyamine
(c) Brucine (d) Atropine

**71.** Mercy killing is also called as:
(a) Poroscopy (b) Euthanasia
(c) Cor en sabot (d) Gustafson's method

**72.** "A", a landholder, knowing of the commission of a murder within the limits of his estate, wilfully misinforms the Magistrate of the district that the death has occurred by accident in consequence of the bite of a snake. "A" is guilty of the offence defined in this section under IPC:
(a) 177 (b) 176
(c) 175 (d) 174

**73.** Hippocrates's oath was modified and is now known as:
(a) Declaration of Helsinki 1964 (b) Declaration of Geneva,1948
(c) Declaration of Tokyo,1975 (d) Declaration of Sweden, 1949

**74.** Somniferous poison is:
(a) Dhatura (b) Cannabis
(c) Belladona (d) Opium

**75.** Haematuria occurs in bite from:
(a) Cobra (b) Krait
(c) Sea snakes (d) Viper

***Direction (Question Nos. 76 -78) : Look at the word in capital letters. Then, from the four words that follow, find the one that means the same thing as the word in capitals.***

**76.** AMIABLE
(a) friendly (b) humorous
(c) healthy (d) convincing

**77.** ARDOUS
(a) hazardous (b) difficult
(c) different (d) pleasurable

**78.** TRANSITIONAL
(a) extreme (b) intermediate
(c) revolutionary (d) change

**79.** What is 'campanile'?
(a) bell tower (b) elaborate candle stick
(c) artillery bombardment (d) thin metal plate

**80.** Choose the word which is most nearly the OPPOSITE in meaning 'INEVITABLY'.

(a) expectedly (b) certainly
(c) mostly (d) avoidably

**81.** Insert the word that completes the first word and begins the second:

DEC (. . . .) AGE

(a) ADES (b) HOME
(c) LINE (d) ODES

**82.** Grapes are sweeter than mangoes. Apples are sweeter than oranges, mangoes are sweeter than apples. Which is the sweetest fruit?

(a) grapes (b) mangoes
(c) apples (d) oranges

**83.** Anjali is older than Pooja but Pooja is not older than Anjali. If Rashmi is older than Pooja but not older than Anjali, then which one of the following is the correct relationship?

(a) Rashmi is older than Anjali
(b) Rashmi is the youngest of them all
(c) Rashmi is the oldest among the three
(d) Anjali is older than Rashmi

**84.** Classes A and B have equal strengths and equal number of boys and girls. All students from A are vegetarians and some students from B are vegetarians. Which one of the following statements is definitely FALSE?

(a) All boys are vegetarians
(b) All girls are vegetarians
(c) Majority of the students are vegetarians
(d) Majority of the students are non-vegetarians

**85.** Betty, Helen, Samantha and Valerie each plays exactly one unique game out of Basketball, Hockey, Soccer and Volleyball, but no one plays a game having same first letter as the first letter of her name. If Valerie plays Basketball and Helen does not play Soccer, then:

(a) Helen plays Basketball
(b) Betty plays Soccer
(c) Samantha plays volleyball
(d) Valerie plays Hockey.

***Direction (Question Nos. 86 & 87) : Given below are four sets of letters. Three of the four sets follow a certain rule. One set does not. Mark the letter of the one set that does not follow the rule.***

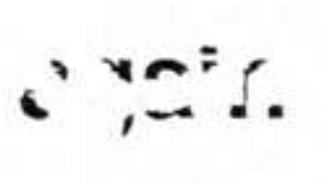

**86.**

(a) BCFF (b) GHKK
(c) KLNN (d) PQTT

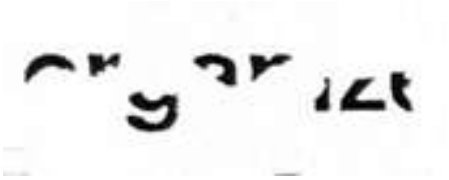

**87.**

(a) CGFJ (b) EIHL
(c) GKJN (d) IMNR

***Direction (Question Nos. 88 & 89) : In this test, you will see a word with parts of the letters missing. This "incomplete" word is followed by four "jumbled" words. You are first to use your imagination to figure out what the incomplete word is. Then find, among the four scrambled choices, the one that has the right letters to spell the incomplete word.***

**88.** 

(a) rgaon
(b) gapna
(c) lpano
(d) ginaa

**89.** 

(a) rygzeran
(b) ezcymai
(c) izonrega
(d) yezirdan

**90.** A bus runs at 54 km per hour. How far will it go in 12 seconds?
(a) 60 m
(b) 90 m
(c) 120 m
(d) 180 m

**91.** There are four wooden poles, A, B, C and D. If A is longer than C, B is smaller than D and C is longer than D, which is the smallest pole?
(a) A
(b) B
(c) C
(d) D

***Direction (Question Nos. 92 & 93) : The following items are made up of short number problems. Each problem is followed by four choices. You are to choose the correct answer. Work as quickly and as accurately as you can.***

**92.** Add : $9\frac{3}{5}+6\frac{1}{1}$

(a) $16\frac{1}{10}$
(b) $16\frac{1}{5}$
(c) $15\frac{4}{5}$
(d) $15\frac{1}{10}$

**93.** Divide $1050 \div 15$
(a) 30
(b) 32
(c) 70
(d) 72

**94.** 40% of ? +180 = 564
(a) 960
(b) 860
(c) 950
(d) 850

**95.** √196 is _____

(a) 14 (b) 24
(c) 36 (d) 98

**96.**

| | |
|---|---|
| 2 | 6 |
| 54 | 18 |

| | |
|---|---|
| ? | 9 |
| 81 | 27 |

(a) 3 (b) 4
(c) 6 (d) 7

***Direction (Question Nos. 97 & 98) : Choose the odd one out:-***

**97.**

(a) 36 (b) 48
(c) 64 (d) 81

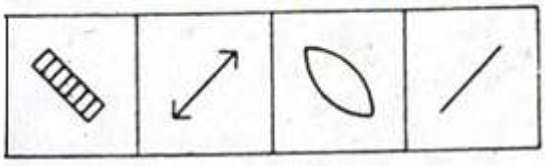

**98.**

(a) 51 (b) 65
(c) 78 (d) 104

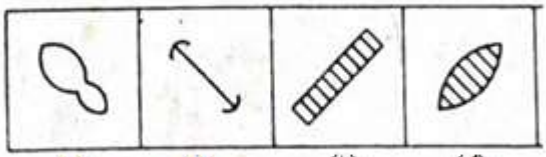

***Direction (Question Nos. 99 & 100) : In this test you will see rows of designs or figures. Each row has four designs called Problem figures. These are followed by four designs called Answer figures. The four Problem figures make a series. That means, they follow each other in a special order. The fifth figure is missing. Find the right picture among the four Answer figures and mark the correct one.***

**99.**

**PROBLEM FIGURES**

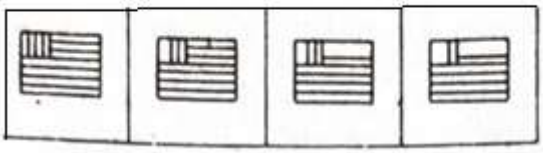

**ANSWER FIGURES**

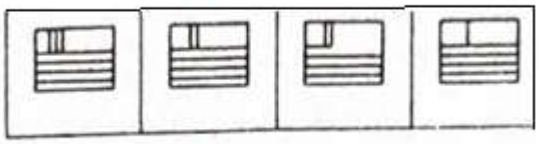

**PROBLEM FIGURES**

**100.**

**ANSWER FIGURES**

(a) (b) (c) (d)
