- (a) Lord Mountbatten (b) Lord Linlithgow
(c) Lord Irwin (d) Lord Wavel
25. Which country has the largest number of volcanoes?
- (a) Japan (b) Indonesia
(c) USA (d) Italy
26. In the Demographic Transition Model, what characterizes "Stage 2"?
- (a) High birth rates and high death rates
(b) Falling birth rates and falling death rates
(c) High birth rates and rapidly falling death rates
(d) Low birth rates and low death rates
27. Majuli, recognized as the world's largest river island, is located in which river?
- (a) Ganga (b) Godavari
(c) Brahmaputra (d) Indus
28. The famous Nathu La pass, a historic trade route, connects India with China. In which Indian state is it located?
- (a) Arunachal Pradesh (b) Himachal Pradesh
(c) Sikkim (d) Uttarakhand
29. The Tropic of Cancer does NOT pass through which of the following states?
- (a) Gujarat (b) Tripura
(c) Jharkhand (d) Meghalaya
30. Which of the following statements about Equinox are correct:
1. It refers to the time when day and night are approximately equal in duration across the Earth.
 2. It occurs twice a year.
 3. It occurs when the Sun is directly overhead at the Tropic of Cancer.
- Select the correct code as given below:
- (a) 1 only (b) 1 and 2 only
(c) 1 and 3 only (d) 2 and 3 only
31. Consider the following statements regarding the Monsoon system:
1. In India, the Southwest Monsoon typically occurs between June and September.
 2. Monsoon circulation is characterized by a seasonal reversal of winds.
 3. Monsoon rains occur uniformly across all parts of India.
- Which of the statements given above are correct?
- (a) 1 and 2 only (b) 2 and 3 only
(c) 1 and 3 only (d) 1, 2 and 3

32. Which of the statements about the Himalayas are correct?

1. They are among the longest mountain ranges in the world.
2. They are among the oldest fold mountains in the world.
3. The North Eastern Himalayas are referred to as the Purvanchal Hills.

Select the correct code as given below:

- | | |
|------------------|------------------|
| (a) 1 and 2 only | (b) 1 and 3 only |
| (c) 2 and 3 only | (d) 2 only |

33. Consider the following statements about Deserts:

1. Deserts are regions that receive less than 250mm of annual precipitation.
2. Plants in deserts often exhibit adaptations such as opening their stomata at night to reduce water loss.
3. All deserts experience high temperatures throughout the year.

Which of the statements given above are correct?

- | | |
|------------------|------------------|
| (a) 1 and 2 only | (b) 1 and 3 only |
| (c) 2 and 3 only | (d) 1, 2 and 3 |

34. Given below are statements about the forest cover in Mizoram:

1. Mizoram has the highest forest cover in India in percentage terms.
2. Mizoram's forest cover is less than 70% of its geographical area.
3. There has been a declining trend due to infrastructure and construction activities.

Select the correct answer using the code below:

- | | |
|------------------|------------------|
| (a) 1 only | (b) 2 only |
| (c) 2 and 3 only | (d) 1 and 3 only |

35. Which of the following statements regarding metamorphic rocks are correct?

1. Metamorphic rocks are directly formed from magma.
2. Marble is an example of a metamorphic rock.
3. Metamorphic rocks can be transformed into sedimentary rocks over time through geological processes.

Select the correct answer using the code given below:

- | | |
|------------------|------------------|
| (a) 1 and 2 only | (b) 1 and 3 only |
| (c) 2 and 3 only | (d) 1, 2 and 3 |

36. Consider the following statements regarding hailstones:

1. Hailstones are formed when raindrops are carried upward by strong updrafts in thunderstorms and freeze into ice.
2. Hailstones are typically associated with cumulonimbus clouds.
3. Hailstones are a rare occurrence globally.

Which of the statements given above are correct?

- | | |
|------------------|---------------------|
| (a) 1 and 2 only | (b) 1 and 3 only |
| (c) 2 and 3 only | (d) 1, 2 and 3 only |

37 Which of the following statements about Speaker of a Legislative Assembly is NOT correct?

- (a) The Speaker ensures decorum in the House.
- (b) Members address the House through the Speaker.
- (c) Another member may preside in the absence of the Speaker.

- (a) 6-18 years (b) 0-15 years
(c) 6-14 years (d) 5-15 years
57. Which of the following is a Sustainable Development Goal (SDG) of the United Nations?
- (a) Free health insurance (b) Zero hunger
(c) Equal wages for all (d) Compulsory higher education

58. What is the full form of the Mizoram government scheme abbreviated as MUHCS?

- (a) Mizoram Uniform Health Care Scheme
- (b) Mizoram Universal Health Care Scheme
- (c) Mizoram United Health Care Service
- (d) Mizoram Universal Healthcare Comprehensive Scheme

59. To fully capitalize on its demographic dividend, India should focus on:

- (a) Expanding social security schemes
- (b) Reducing infant mortality rate
- (c) Improving physical and digital infrastructure
- (d) Promoting skill development and employability

60. Which of the following statements regarding poverty in India is correct?

- (a) The poverty line is determined solely by income per household.
- (b) Rural poverty is higher than urban poverty in India.
- (c) Poverty rates are declining uniformly across all states.
- (d) Poverty in India is uniform across all states.

61. Consider the following statements about Ramsar sites in Mizoram:

- 1. Palak Dil is the first Ramsar site in Mizoram.
- 2. Ramsar sites are aimed at conservation and wise use of wetlands.
- 3. Only wildlife is permitted within the site.
- 4. There are more than 10 sites in Mizoram.

Which of the statements given above are correct?

- (a) 1 and 2 only
- (b) 1, 2 and 3 only
- (c) 2 and 3 only
- (d) 3 and 4 only

62. Which of the following are threats to the biodiversity of a geographical area?

- 1. Global warming
- 2. Fragmentation of habitat
- 3. Reforestation programs
- 4. Invasion of alien species

Select the correct answer using the code below:

- (a) 1 and 3 only
- (b) 2 and 3 only
- (c) 1, 2 and 4 only
- (d) 2,3 and 4 only

63. India has set which year as the target for achieving Net Zero emissions?

- (a) 2030
- (b) 2047
- (c) 2070
- (d) 2100

64. Which of the following statements about a food web is correct?

- (a) It shows the feeding relationships among all organisms in an ecosystem.
- (b) It shows multiple interlinked food chains in an ecosystem.
- (c) Energy flows in only one direction from producers to consumers.
- (d) Decomposers are not part of a food web.

65. Which among the list of pollutants given below is NOT used to calculate the Air Quality Index (AQI) in India?

- (a) Carbon monoxide
- (b) Nitrogen dioxide
- (c) Carbon dioxide
- (d) Sulphur dioxide

66. Which of the appliances listed below have Star ratings under the Bureau of Energy Efficiency (BEE) program?
1. LED lamp
 2. Washing machine
 3. Mobile phones
 4. Solid state inverter

Select the correct option using the code below:

- | | |
|---------------------|---------------------|
| (a) 1, 2 and 3 only | (b) 1, 3 and 4 only |
| (c) 2 and 3 only | (d) 1, 2 and 4 only |
67. Which of the following correctly matches the plant reproductive structures with the parts they develop into?
- | | |
|-----------------------------------|---------------------------------|
| (a) Ovary - fruit; Ovule - seed | (b) Ovary - seed; Ovule - fruit |
| (c) Ovary - flower; Ovule - fruit | (d) Ovary - leaf; Ovule - root |
68. Wireless charging of devices works on the principle of:
- | | |
|-----------------------------|-------------------------------|
| (a) Electric conduction | (b) Electromagnetic induction |
| (c) Radio wave transmission | (d) Thermal conduction |
69. Which of the following gases are the main components of Liquefied Petroleum Gas (LPG)?
- | | |
|-------------------------|---------------------------------|
| (a) Propane and Butane | (b) Methane and Ethane |
| (c) Oxygen and Nitrogen | (d) Carbon dioxide and Hydrogen |
70. With reference to Oral Rehydration Solution (ORS), which of the following statements are correct?
1. ORS can be prepared at home using the correct proportion of salt and sugar.
 2. The World Health Organisation (WHO) has provided a recommended composition for ORS.
 3. ORS helps prevent dehydration caused by diarrhea and vomiting.
 4. ORS provides significant nutritional calories for growth.

Select the correct option:

- | | |
|------------------|---------------------|
| (a) 1 and 2 only | (b) 1, 2 and 3 only |
| (c) 2 and 3 only | (d) 1, 3 and 4 only |
71. With reference to visible light, which of the following statements is INCORRECT?
- (a) The combination of all colors of visible light forms white light.
 - (b) Red light has the longest wavelength in the visible spectrum.
 - (c) In a rainbow, all colors have sharply distinct boundaries.
 - (d) The wavelength of visible light ranges from 400-700 nm.
72. Which of the following are possible applications of Artificial Intelligence (AI)?
1. Generating visual and musical art
 2. Assisting in the diagnosis of rare diseases
 3. Aiding in the discovery of new scientific laws and insights
 4. Controlling and automating mechanical equipments

Select the correct answer using the code below:

- | | |
|------------------|---------------------|
| (a) 1 and 2 only | (b) 1, 2 and 4 only |
| (c) 2 and 3 only | (d) 1, 2, 3 and 4 |

73. Who coined the term “Ecosystem” in 1935?
- (a) Ernst Haeckel (b) Arthur Tansley
(c) Charles Darwin (d) Eugene Odum
74. The transitional zone between two distinct diverse ecosystems (e.g., between a forest and a grassland) is known as an:
- (a) Ecocline (b) Ecotype
(c) Ecotone (d) Ecological Niche
75. The “Red Data Book,” which keeps a record of all endangered plants and animals, is published by:
- (a) IUCN (International Union for Conservation of Nature)
(b) WWF (World Wide Fund for Nature)
(c) UNEP (United Nations Environment Programme)
(d) IPCC (Intergovernmental Panel on Climate Change)
76. The primary objective of the Paris Agreement (COP21) is to limit global warming to well below how many degrees Celsius compared to pre-industrial levels?
- (a) 1.0°C (b) 1.5°C
(c) 2.0°C (d) 3.0°C
77. The increasing concentration of toxic substances (like DDT) in the tissues of organisms at successively higher levels in a food chain is known as:
- (a) Bioaccumulation (b) Bioremediation
(c) Biomagnification (d) Biodegradation
78. What does a high Biochemical Oxygen Demand (BOD) in a water body indicate?
- (a) The water is pure and highly oxygenated.
(b) The water is highly polluted with organic matter.
(c) There is an abundance of photosynthetic algae.
(d) The water temperature is very low.
79. What is the unit of electric current?
- (a) Volt (b) Watt
(c) Ohm (d) Ampere
80. What is the speed of light?
- (a) 3×10^6 m/s (b) 3×10^7 m/s
(c) 3×10^8 m/s (d) 3×10^9 m/s
81. Sound waves cannot travel through:
- (a) A vacuum (b) Liquids
(c) Gases (d) Solids
82. Which part of the human brain is primarily responsible for coordinating voluntary movements and maintaining balance and support motor learning?
- (a) Cerebrum (b) Medulla oblongata
(c) Cerebellum (d) Hypothalamus
83. What is the SI unit used to measure the absorbed dose of ionizing radiation?
- (a) Sievert (Sv) (b) Becquerel (Bq)
(c) Curie (Ci) (d) Gray (Gy)

84. In plants, the vascular tissue responsible for the upward transport of water and minerals from the roots is the:
- (a) Phloem
 - (b) Stomata
 - (c) Xylem
 - (d) Epidermis
85. What is “Thangchhuah” status?
- (a) Warrior rank
 - (b) Social honor achieved through feats and feasts
 - (c) Religious title
 - (d) Farming title
86. In the famous Mizo folktale of “Liandova te unau,” the story revolves around:
- (a) Two impoverished, orphaned brothers who eventually find fortune
