MIZORAM PUBLIC SERVICE COMMISSION

GENERAL COMPETITIVE EXAMINATION FOR RECRUITMENT TO THE POST OF INSPECTOR UNDER EXCISE & NARCOTICS DEPARTMENT, GOVERNMENT OF MIZORAM.

(AUGUST-2025)

GENERAL STUDIES PAPER-III

Time Allowed : 3 hours FM : 200

SECTION - I *(Multiple Choice Questions) (100 Marks)*

All questions carry equal mark of 2 each. Attempt all questions.

*This Section should be answered only on the **OMR Response Sheet** provided.*

1. Bt Cotton is a genetically modified Cotton plant which:

(a) is resistant to bollworm.

(b) has not been released for commercial cultivation yet.

(c) developed a resistance to the herbicides.

(d) negates effect of Barnase protein.

2. This is a flagship programme of MeitY for startups acceleration under National Policy on Software Products – 2019.

(a) Digital India BHASHINI (b) SAMRIDH

(c) DigiLocker (d) YUVAi

3. Which of the following is an example of thermonuclear fusion reaction?

(a) Hydrogen bomb (b) Nuclear bomb

(c) Release of nuclear energy in the sun (d) Both (a) and (c)

4. India's first AI teacher robot is:

(a) Iris (b) Manav

(c) Mitra (d) RADA

5. The maximum mass a white dwarf star can have while remaining stable (beyond which it will collapse under its own gravity, potentially forming a neutron star or a black hole) is known as:

(a) Chandrasekhar limit (b) Saha Ionisation equation

(c) Bose-Einstein condensate (d) Wien's Displacement

6. Dr MS Swaminathan is often referred to as:

(a) Father of Green Revolution in India (b) Father of White Revolution in India

(c) Father of Indian Nuclear Program (d) Father of Indian Space Program

7. The Indian 'Kavach' system for train safety relies on the principle of ultra-high frequency radio communication between stationary track-side equipment and the locomotive. This technology is most accurately classified as:

(a) Optical Fibre Communication (OFC) based signaling.

(b) Long-range (LoRa) wide area network.

(c) RFID (Radio Frequency Identification) tag interrogation.

(d) Satellite-based augmentation via GAGAN.

8. The National Supercomputing Mission (NSM) is implementing a multi-pronged approach to build India's supercomputing infrastructure. The 'PARAM Siddhi-AI', one of India's most powerful supercomputers under this mission, is specifically architected to excel in:

(a) Climate modeling and monsoon simulation.

(b) Deep learning, visual computing, and big data analytics.

(c) Computational fluid dynamics for aerospace engineering.

(d) Genomic sequencing and bioinformatics research.

9. While DigiLocker provides a platform for digital documents, the underlying framework that enables seamless, paperless, and consent-based verification of these documents by service providers is known as:

(a) Aadhaar e-Sign Framework.

(b) Digital Saksharta Abhiyan (DISHA).

(c) National e-Authentication Framework.

(d) Digital Document Execution (DDE) Platform.

10. The FELUDA test for COVID-19, developed by the Council of Scientific and Industrial Research (CSIR), is based on the same gene-editing technology as CRISPR-Cas9 but specifically utilizes which protein for detecting the virus's genetic material?

(a) Cas12 (b) Cpf1

(c) Cas13a (d) Cas9

11. India's Deep Ocean Mission involves the development of technologies for mining Polymetallic Nodules from the seabed. These nodules are of significant economic interest primarily due to their high concentration of:

(a) Gold and Silver. (b) Iron and Aluminum.

(c) Nickel, Copper, Cobalt, and Manganese. (d) Thorium and Uranium.

12. The Unified Payments Interface (UPI) has revolutionized digital payments in India. A key technical feature that enables its high volume of real-time transactions is its:

(a) Dependence on a centralized server managed by the Reserve Bank of India.

(b) Use of a distributed ledger system similar to blockchain.

(c) Operation as a single-bank, closed-loop system for security.

(d) Three-tier architecture that decouples the payment service provider from the bank's core banking system.

13. The 'Astra' missile, a key asset of the Indian Air Force, represents a significant indigenous achievement in missile technology. Its defining characteristic is that it is a/an:

(a) Anti-tank guided missile with 'fire-and-forget' capability.

(b) Supersonic cruise missile launched from multiple platforms.

(c) Beyond-Visual-Range (BVR) Air-to-Air Missile.

(d) Submarine-launched ballistic missile.

14. 'Oilzapper', developed by TERI (The Energy and Resources Institute), is a notable Indian innovation for bioremediation. It specifically consists of a consortium of bacteria highly effective in degrading:

(a) E-waste and heavy metals.

(b) Crude oil and oily sludge (hydrocarbon waste).

(c) Plastic and polymer waste.

(d) Agricultural and municipal solid waste.

15. The '5G High Level Forum' appointed by the Government of India outlined the vision for 5G in the country. A key recommendation, distinguishing its vision from a purely commercial rollout, was to primarily leverage 5G for:

(a) Enhancing urban mobile broadband speeds to compete with global standards.

(b) Societal benefits by focusing on applications in healthcare, agriculture, and smart cities.

(c) Reducing the operational cost for telecom operators.

(d) Replacing all existing 4G infrastructures with indigenous 5G equipment.

16. The 'SAMARTH Udyog Bharat 4.0' is an initiative by the Department of Heavy Industry to promote Industry 4.0 in India. It focuses on the development of interconnected systems where manufacturing efficiency is enhanced by bridging the gap between:

(a) Traditional craftsmanship and modern design.

(b) Large-scale industries and Micro, Small & Medium Enterprises (MSMEs).

(c) The physical world of industrial machinery and the digital world of data and analytics.

(d) Public sector manufacturing units and private sector technology providers.

17. In the context of India's strategic materials development, 'Mishra Dhatu Nigam Limited' (MIDHANI), a DPSU, plays a critical role. It is specialized in the manufacturing of:

(a) Semiconductor wafers and integrated circuits.

(b) High-purity optical fibres for telecommunications.

(c) Superalloys, titanium, and special-purpose steels for defence, space, and atomic energy sectors.

(d) Composite materials for the light combat aircraft.

18. Among the following organisms, which one does not belong to the class of the other three?

(a) Beetle (b) Mosquito

(c) Ants (d) Spider

19. Water passes from soil to plant roots by a physical process called?

(a) Osmosis (b) Diffusion

(c) Absorption (d) Transpiration

20. ISRO's successful development of high-thrust cryogenic engine technology, crucial for its GSLV Mk-III (LVM3) launch vehicle, involved overcoming the extreme challenge of handling:

(a) Liquid hydrogen at -253°C and liquid oxygen at -183°C.

(b) Refined kerosene (RP-1) and solid aluminum propellants.

(c) Unsymmetrical dimethylhydrazine (UDMH) and nitrogen tetroxide.

(d) Monomethylhydrazine (MMH) under hypergolic conditions.

21. Another name for 'Dingdi puan tah' is:

(a) Hrangkhupa se dar (b) Sikeisen

(c) Khiangte zawng zim (d) Vanpui saihrua

22. A kind of engagement for marriage in Mizo tradition is:

(a) Lungvar (b) Ran ngo zawng

(c) Khawnthiang (d) Zawlpuan phah

23. Khawnglung Run was during which of the following wars?

(a) Chhim leh Hmar indo. (b) Chhak leh Thlang indo.

(c) Thlanrawn rawt. (d) Halkha indo.

24. Which one of the following is a tax paid to the Mizo chief?

(a) Salam (b) Fathang

(c) Vanlung (d) Khal

25. The Mizo alphabet 'a, aw, b' was made following the:

(a) Hunterian system (b) Syllabic system

(c) Logographic system (d) Morphemic system

26. Which of the following is not related to Puma Zai?

(a) Hrangchhawni zai (b) Mutelen zai

(c) Darpawngi zai (d) Chalmar zai

27. The Inner Line Regulation of Mizoram is enforced following which of the following?

(a) The Assam Reorganisation Act, 1973

(b) The Eastern Bengal Frontier Regulation, 1873

(c) The Mizoram Inner Line Regulation Act, 1951

(d) The North Eastern Region Reorganisation Regulation, 1971

28. The accepted official establishment of Aizawl was in?

(a) 1st March, 1888 (b) 1st Feb, 1890

(c) 25th April, 1894 (d) 25th Feb, 1890.

29. Which traditional dress is not correctly paired?

(a) Lai – Hnika (b) Mara – Dua

(c) Paite – Hnawkhal (d) Lusei – Puanchei

30. Who amongst the following was the first MP (Rajya Sabha) from Mizoram?

(a) Dr. C. Silvera (b) Pu Lalbuaia

(c) Pu Hiphei (d) Pu C.L. Ruala

31. The implementation of the Peace Accord between the Government of India and the Mizo National Front resulted in:

(a) The first coalition government in Mizoram with Janata Dal.

(b) The resignation of Pu Lal Thanhawla to accommodate Pu Laldenga as Chief Minister.

(c) The dissolution of the first State Assembly within a year.

(d) The elevation of Mizoram to Union Territory status.

32. Which of the following statements best distinguishes the Chief's house (Lal In) from that of the commoner's house in a traditional Mizo village?

(a) The commoner's house alone had a verandah called "Bahzar" reserved for feasts.

(b) Only the Chief's house had a passage with rooms for retainers and a private verandah.

(c) The hearth was absent in the Chief's house due to its symbolic status.

(d) Windows were a universal feature in both houses to allow fresh air inside.

33. Siaha District, though now a distinct administrative unit, has a historical connection to another district in Mizoram. In 1998, a division occurred that led to Siaha District's current form. What was the *brief* interim name given to the half that eventually became Siaha District immediately after this split?

(a) Mara Autonomous District (b) Saiha District

(c) Chhimtuipui District (d) Lunglei District

34. Identify the correct differentiation between "Bawi(s)" and "Sal(s)" in traditional Mizo society based on the provided below:

(a) "Bawi(s)" were captives during wars or feuds and were considered the property of their captors, while "Sal(s)" were individuals who surrendered to the chief due to distress.

(b) "Sal(s)" could be kept by any household and were bought and sold, whereas "Bawi(s)" could only be possessed by a chief.

(c) Both "Bawi(s)" and "Sal(s)" were treated as members of the chief's household and had the freedom to acquire private properties and marry.

(d) "Inpuichhung bawi" were criminals seeking refuge, "Chemsen bawi" surrendered due to poverty, and "Tukluh Bawi" were war captives.

35. The policy shift in British approach towards the Lushai Hills, moving from punitive expeditions to establishing permanent military presence, was significantly influenced by which major geopolitical event?

(a) The raids in 1849 leading to an expedition.

(b) The attack on Lieutenant John Stewart's Survey Party in March 1888.

(c) The annexation of Upper Burma.

(d) The Chin-Lushai Expedition of 1889-90.

36. The first known organization formed by the Mizos, the 'Lushai Students' Association' (Mizo Zirho Pawl), was established in 1924 by Mizo students in which of the following cities?

(a) Aizawl, Lunglei, and Shillong (b) Calcutta, Gauhati, and Shillong

(c) Aizawl, Calcutta, and Gauhati (d) Lunglei, Gauhati, and Shillong

37. What were the primary factors leading to the evolution and incorporation of the Sixth Schedule provision in the Constitution of India, which subsequently enabled the emergence of Autonomous District Councils like those in Mizoram?

(a) The British colonial administration's desire to maintain control over tribal areas and exploit their resources.

(b) The tribal desire for political autonomy and their quest for economic development.

(c) The need to integrate tribal communities fully into the mainstream administrative structure of India.

(d) The recommendations of the Cabinet Mission to establish direct central rule over all tribal regions.

38. Which of the following statements regarding the Mizo District Council's administrative structure and key personnel in its first term is INCORRECT?

(a) Lalsawia was the Chief Executive Member (CEM).

(b) Dr. Rosiama served as the Chairman.

(c) The first budget of the Lushai Hills Autonomous District Council was Rs. 15,377/-.

(d) R.B. Chawnga was appointed as the President of the District Council Court at Aizawl.

39. Considering the administrative divisions of Mizoram, which of the following statements accurately reflects the relationship between its districts, sadar sub-divisions, civil sub-divisions, and blocks?

(a) The number of civil sub-divisions is equal to the total number of districts and sadar sub-divisions combined.

(b) Each district in Mizoram contains at least one sadar sub-division and one civil sub-division, ensuring a balanced administrative structure across all 11 districts.

(c) The number of Blocks is exactly double the combined total of districts and civil sub-divisions.

(d) Mizoram has more civil sub-divisions than sadar sub-divisions, while the number of blocks significantly exceeds the number of districts.

40. Regarding the division of property upon dissolution of a marriage, under what specific circumstance will a woman who leaves her husband on 'sumchhuah' still retain rights over the acquired property?

(a) If her husband initiates the 'sumchhuah' by returning the marriage price.

(b) If she was compelled to leave due to her husband's domestic violence or cruelty.

(c) If the separation is by mutual consent.

(d) If she has been deserted by her husband for at least two years.

41. What should come in place of *'a'* in the equation 38a4 + 98 = 3942?

(a) 2 (b) 4

(c) 6 (d) 8

42. Choose the correct word for *'mother:child::cloud:* _____*'*.

(a) Weather (b) Vapour

(c) Rain (d) River

43. Pointing to Mrs. D, Mr. R said, "She is the sister of my sister's father". How is Mrs. D related to Mr. R?

(a) Aunt (b) Mother -in-law

(c) Grandmother (d) Mother

44. Which is the odd word out?

(a) Murmur (b) Whisper

(c) Hearken (d) Burble

Direction for Questions No.45 - 47: Find the Missing number in the series given below.

45. 16, 22, 34, 58, 106, ? , 394

(a) 178 (b) 175

(c) 288 (d) 202

46. 2, 3, 4, 7, 6, 11, 8, 15, 10, ?

(a) 12 (b) 13

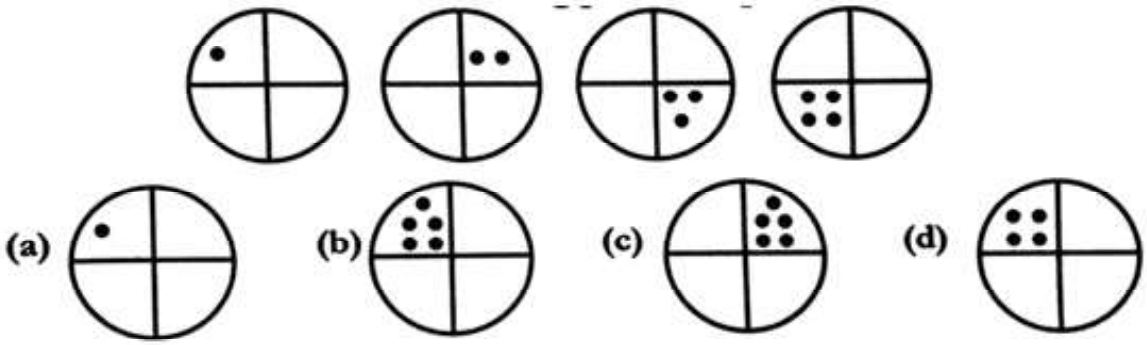

(c) 17 (d) 19

47. 2,5,10,17,28,41, –, –, –

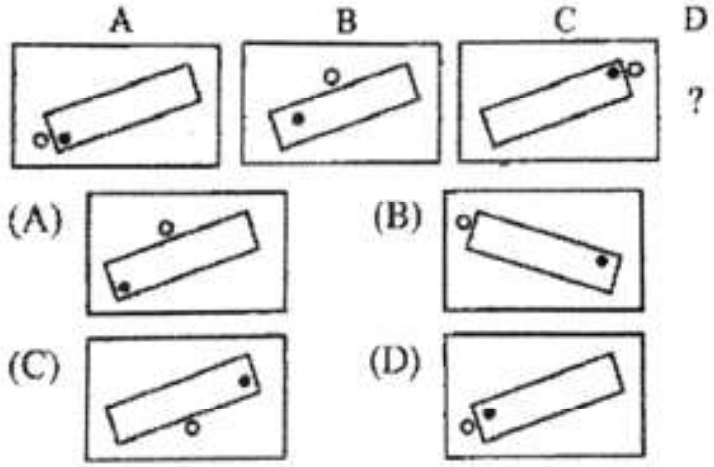

(a) 58,77,100 (b) 64,81,100

(c) 43,47,53 (d) 55, 89,113

48. What figure comes next in the following picture sequence?

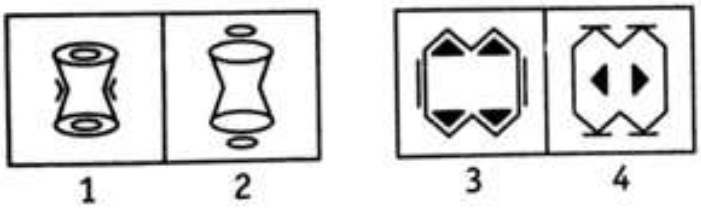

49. What will be the next figure in the following sequence?

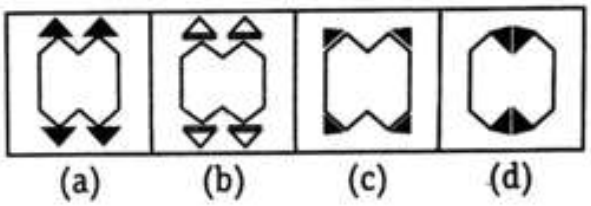

50. Figures (1) and (2), and figures (3) and (4) form two pairs of problem figures. Select the figure from the options (a), (b), (c), and (d) which will replace figure (4) such that the relationship between figures (3) and (4) is similar to the relationship between figures (1) and (2)-

Problem Figures

Answer Figures

Section - II *(100 Marks)*

*This Section should be answered only on the **Answer Sheet** provided.*
Marks are indicated against each question.

UNIT-A

Attempt any 2 (two) questions.

1. Explain Cybersecurity. What are the challenges in India's Cybersecurity? **(5+15=20)**

2. Examine the sustainability of electric vehicles as the future of transport sector. Write note on Government of India initiatives to promote electric vehicles. **(10+10=20)**

3. Examine the contribution of digital public infrastructure, particularly Aadhaar, UPI and DigiLocker, in improving governance and delivery of public services in India. **(20)**

4. Analyse the role of science and technology in addressing the unique developmental challenges of the North Eastern Region of India, with specific reference to Mizoram**.** **(20)**

UNIT-B

Attempt any 2 (two) questions.

5. Elaborate the origin and migration of the Mizos based on traditional Mizo folklores. Write a brief note on the significance of Khampat Bungpui. **(15+5=20)**

6. Write note on the history of political parties in Mizoram. Compare the present-day governance with that during the Lushai chiefs. **(10+10=20)**

7. What is the history and impact of the song: **(10+10=20)**

"*Buanhmun pai ang pawm tawh hnu,*

Chengteah lam ang let e,

Lalpuithang lema"

8. With particular reference to the colonial interventions in the Lushai Hills during the late 19th and early 20th century, critically examine the impact of British military expeditions and administrative policies on the socio-political landscape of Mizoram. **(20)**

UNIT-C

Attempt all questions.

9. If A means addition, B means subtraction, C means multiplication and D means division, then 30 D 2 A 3 C 6 B 5 = ? **(2)**

(a) 18 (b) 24

(c) 28 (d) 32

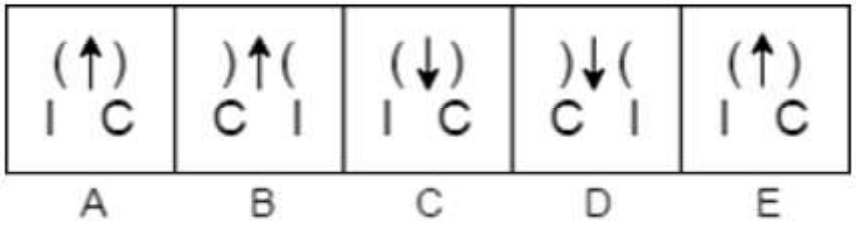

10. The position of how many letters will remain unchanged if the letters of the word VAPORIZE are arranged alphabetically? **(2)**

(a) One (b) Two

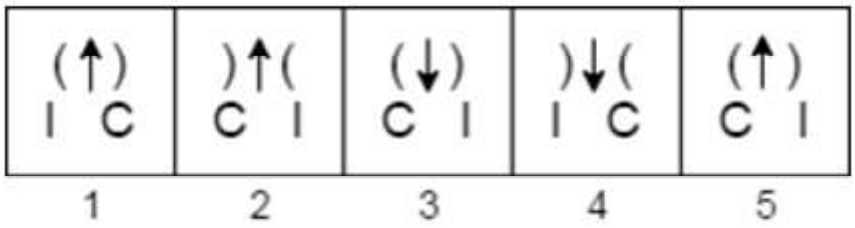

(c) Three (d) Four

Direction for Question Nos. 11 & 12: Observe the problem figures given and select one option from the answer figures which will continue the same pattern followed in the problem figures.

11. Problem figures: **(2)**

Answer figures:

(a) 5 (b) 4

(c) 3 (d) 2

12. Choose the correct water - image of the main figure from the given four figures**.** **(2)**

Main Figure:

bridge

Answer Figures:

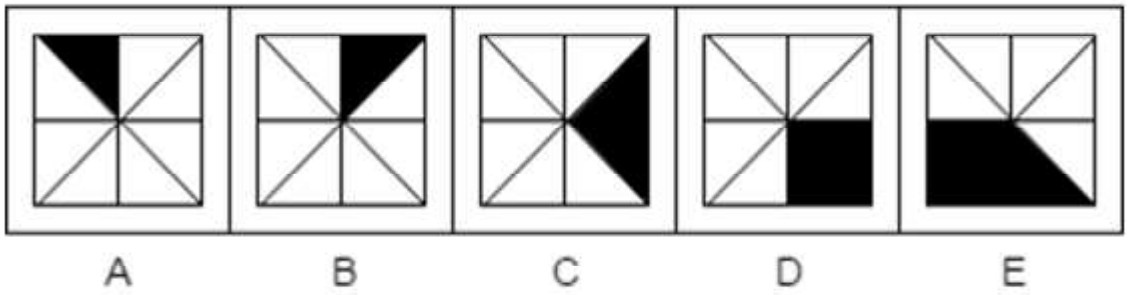

(a) 1 (b) 2

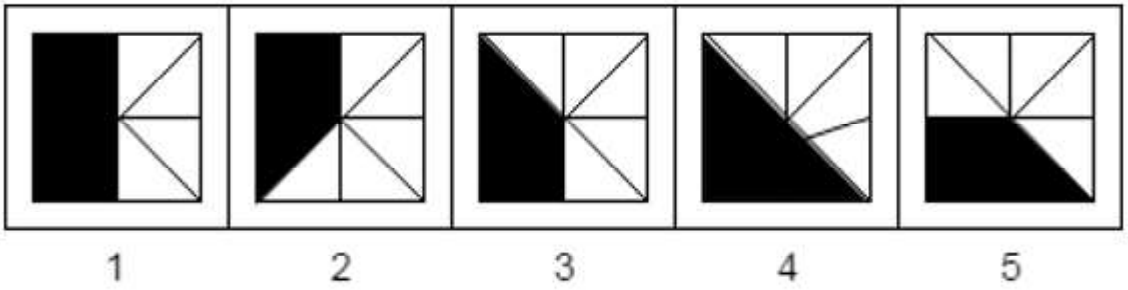

(c) 3 (d) 4

Direction for Question No. 13: Observe the problem figures given and select one option from the answer figures which will continue the same pattern followed in the problem figures.

13. Problem figures: **(2)**

Answer figures:

(a) 5 (b) 1

(c) 3 (d) 2

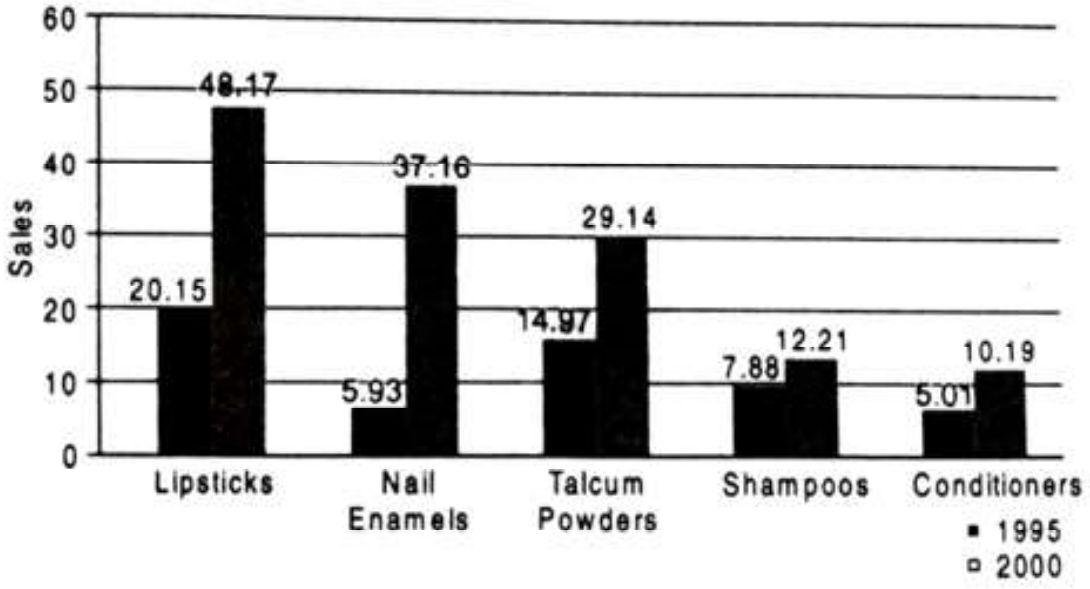

14. In a certain code, 'DESIRABILITY' is written as 'ARISEDYTILIB'. In the same code, 'PREREQUISITE' will be written as **(2)**

(a) QEREPRETISIU (b) QERERPETISIU

(c) QEREPRTEISIU (d) QERERPETIISU

Direction (Question Nos. 15 to 18): A cosmetic company provides five different products. The sales of these five products (in lakh number of packs) during 1995 and 2000 are shown in the following bar graph.

Sales (in lakh number of packs) of Five Different Products of Cosmetic Company During 1995 and 2000

15. The sales of lipsticks in 2000 was by what per cent more than the sales of nail enamels in 2000? (rounded off to nearest integer) **(2)**

(a) 33% (b) 31%

(c) 30% (d) 22%

16. During the period 1995-2000, the minimum rate of increase in sales is in the case of **(2)**

(a) shampoos (b) nail enamels

(c) talcum powders (d) lipsticks

17. What is the approximate ratio of the sales of nail enamels in 2000 to the sales of talcum powders in 1995? **(2)**

(a) 7:2 (b) 5:2

(c) 4:3 (d) 2:1

18. The sales have increased by nearly 55% from 1995 to 2000 in the case of: **(2)**

(a) lipsticks (b) nail enamels

(c) talcum powders (d) shampoos
